

THE VOICE OF THE ENERGY EFFICIENCY INDUSTRY

The European Alliance to Save Energy (EU-ASE) brings together leading organizations and inspiring individuals from the world of business, politics, academia and campaigning.

Governed by its Board of Directors, its members work together as a united force to show that by advancing energy efficiency in Europe, in particular by supporting the deployment of existing technologies, we can rapidly achieve a healthier economy, a cleaner environment and greater energy security.

Current members are recognized leaders in energy efficiency. Through their membership they actively have the opportunity to work with some of Europe's most prominent elected representatives and their peers as well as engaging with senior national, European and global policy makers through high-level political outreach. As the voice of the energy efficiency industry, they are at the frontline of EU policy and work closely to shape decisions on key initiatives and legislative proposals.

Members also benefit from speaking at EU-ASE-hosted events, highlighting their successes through the EU-ASE website, social media and publications.

Never before has the case for greater energy savings been so strong. If you are not part of the Alliance, we encourage you to join us in helping to harness the potential of Europe's greatest energy resource: energy efficiency.

GIVING POLICY MAKERS A PORT OF CALL

The Alliance creates awareness of the vast array of energy efficiency products and services now available through its member companies. It offers policy makers a partner to communicate what energy efficiency stands for in its broader context - energy security, economic growth, job creation and better life quality.

White Paper:

"The case for energy efficiency and why the EU must act now" (2012)

Brochure:

"The case for a European Energy Saving target for 2030" (2013)

Infographic:

"We are energy efficiency" (2014)

GIVING ENERGY EFFICIENCY A BROADER VOICE

The Alliance offers a platform to create a broad cross-sectoral voice for energy efficiency in Europe.

100 ARTICLES

in national and international online and printed media since 2011

30,000 VISITORS

on www.euase.eu since 2011

13 HIGH LEVEL public events since 2011

65% INCREASE in membership since its foundation

GIVING ENERGY EFFICIENCY A STRONGER VOICE

The Alliance brings together senior business leaders, politicians, decision makers and thought leaders to ensure the voice of the energy efficiency industry is heard.

They raise awareness and reach out to Heads of State and Ministers, Members of the European Parliament, Commissioners, Commission services and the Media.

300 HIGH LEVEL BILATERAL MEETINGS held in Brussels since 2011

5 EU-ASE BUSINESS DELEGATIONS met with Ministers in Ireland, Poland, Italy (x2) and Denmark in 2013/2014

Brief survey

Please help us to better understand your needs and expectations.
Have your say by taking part in the brief survey below. We look forward to receiving your input.

Q1 One third of the progress towards the 2020 targets is due to lower than expected growth during the financial crisis. How can the EU avoid complacency about reaching the 20% energy savings target?

- Enact additional sectorial legislation
- Set a binding energy saving target
- Incentivise Member States to implement existing regulation
- Others, please state

Q2 What does the EU need to do to make its energy efficiency market the best in the world?

- Keep the status quo, there is no need for any intervention
- The market is driven by regulations
- Binding measures/targets defined at EU and/or Member State level for energy savings are essential
- Others, please state

Q3 Is there anything else you would like to add? Please, do so below.

Why become a Member?

MAKE A DIFFERENCE

Contribute to the creation of a European energy efficiency market, help reduce EU energy dependence and help tackle global climate change

ENGAGE WITH POLICY MAKERS

Work side-by-side with European, national and international policy and decision makers to shape the energy efficiency agenda

CONNECT WITH BUSINESS LEADERS

Foster good business practices and share ideas with innovative and diverse businesses and entrepreneurs

POSITION YOUR ORGANISATION

We only welcome organisations providing first class energy efficient technologies and/or solutions
